

WIND FARM COMMUNITY INFORMATION SESSION

CWP Renewables would like to invite you to a community information drop-in session at the Adjungbilly Community Hall to learn more about the proposed Jeremiah Wind Farm, provide your feedback and get to know the team.

Jeremiah Wind Farm near Adjungbilly is in the early stages of planning. The proposal currently comprises of around 65 turbines and battery energy storage with a generating capacity of approximately 400 MW, enough to power over 200,000 homes. The project is expected to bring significant community benefits, jobs and investment to the local and regional economy.

Please join us:

TUESDAY 30TH MARCH from 2PM – 7PM

Adjungbilly Community Hall (Bongongo Public School)
Adjungbilly Road, Adjungbilly NSW 2727

Drinks and light refreshments will be provided.
