

MEDIA RELEASE

17 May 2018

The Sapphire Wind Farm is leaving a lasting legacy through its *Construction in the Community* program

New England, NSW. With construction of the Sapphire Wind Farm now well underway, CWP Asset Management and its contractors Vestas, Zenviron and TransGrid are undertaking construction of a different kind through the ***Construction in the Community*** program.

Construction in the Community is one of a series of programs that will deliver long-lasting benefits to the communities surrounding Sapphire Wind Farm.

The successful ***Construction in the Community*** recipients for Round 1 are:

- **Kings Plains Rural Fire Brigade:** concrete apron
- **Glen Industries:** initiative garden
- **National Transport Museum, Inverell:** expo ground improvements
- **Glen Innes District Community Centre:** refurbishment of Community Hall
- **Glen Innes Arts Council:** loading ramp at Chapel Theatre
- **Elsmore Soldiers Memorial Hall:** ceiling replacement
- **Delungra Showground Committee:** painting of facilities
- **Ross Hill Primary School P & C:** concrete slab
- **Glen Innes Basketball Association:** amenity improvements

We will share updates on the progress of these projects on our website over coming months.

Round 2 of ***Construction in the Community*** will occur later this year. Community groups, catchment and wildlife groups, school P & C associations and non-profit organisations from the Inverell and Glen Innes Severn Shires will be eligible to apply for funding.
